

MISSION: IMPERATIVE!

Presenting biblical creation scientifically

March 16 & 17 "THE STRICKEN EARTH" WEEKEND SCHEDULE

SESSION #	TIME	SESSION TITLE
<u>SATURDAY EVENING</u>		
PRE-REGISTERED MEAL	5:00 - 6:00	(Sign up sheet located at the Welcome Center)
1	6:00 - 7:00	THAT'S IMPOSSIBLE
BREAK	7:00 - 7:10	
2	7:10 - 8:10	THE HORROR OF THE FLOOD
<u>SUNDAY MORNING</u>		
3	9:00 - 9:45 Combined S.S.	HOW EVOLUTIONIZED ARE YOU?
BREAK	9:45 - 10:00	
4	10:00 - 11:15 Church Service	STRICKEN EARTH
<u>SUNDAY EVENING</u>		
5	5:30 - 6:30	THE GRAND CANYON
BREAK	6:30 - 6:40	
6	6:40 - 7:30	SPIDERS!

*Childcare will be provided for nursery and preschool aged children.
See reverse side for session details.*

**Bring the whole family, friends, and neighbors.
Know how to defend your faith with scientific evidence!**

Creationist, Mike Snavely
(Inductee into the Creation Science Hall of Fame)

March 16 & 17

THAT'S IMPOSSIBLE | Sat. 6:00 PM

Animals display incredible variety. This includes the amazing aspect of instinct, which each animal possesses uniquely. Some, however, go beyond this and enter the world of symbiosis, especially "mutualism" - when creatures need each other to survive! It is inconceivable to imagine that both instinct and symbiosis just randomly happened, unguided by a Designer!

This session closes with a twist on what many people think is impossible with God's involvement with the issues found in Genesis 1-12.

THE HORROR OF THE FLOOD | Sat. 7:10 PM

Could you explain where the water for a world-wide flood would have come from, and where it all went?! Many Christians can't. Understanding the flood (the purpose, the causes, the aftermath and the evidence) is very important to an understanding of a biblically sound creation model. This session covers the basics about this event, and also includes a video & PowerPoint presentation on the "Hydroplate Theory". This theory is a biblically accurate and scientifically feasible portrayal of the flood event.

HOW EVOLUTIONIZED ARE YOU? | Sun. 9:00 AM

This is a multiple-choice quiz (!) - designed as an interactive activity for a whole group.

Twenty+ questions are placed on a screen, with various possible answers. Sometimes the correct answer will surprise you. Designed as an enjoyable activity, it will also help to sharpen what you really know about the creation issue.

STRICKEN EARTH | Sun. 10:00 AM

The earth is wearing out, just like the Bible said it would. The earth is undergoing changes that can be seen everywhere -- Why do volcanoes erupt? Why are there earthquakes and tsunamis? Why do rocks fall from the sky? What are comets? Why are there unique weather patterns? And, is the earth warming? If so, why? Why are all continents shifting toward the Pacific? What produces El Niños? The answers are all related, and might surprise you!

THE GRAND CANYON | Sun. 5:30 PM

This is one of the most breathtaking and perplexing sites in the world. Standard geological explanations for its formation are wrong, and most creationists have overlooked some major pieces of the puzzle. Amazingly, what carved the canyon also explains most of the fascinating geological features in the entire area (e.g. Monument Valley, The Petrified Forest, Canyonlands & Arches, Canyon de Chelly, etc.). Furthermore, they all formed very quickly! What happened?!

SPIDERS! | Sun. 6:40 PM

Repulsive creatures, right? Perhaps, but spiders are actually quite incredible! There are three basic types of spider, and each one displays amazing capabilities that astound anyone who bothers to take a look. They are marvels of design and very beneficial to mankind. This session takes a fun and fascinating look at these creatures in a new light. Will you hesitate to squish the ones you see in your house after seeing this session?.....no, probably not! But outside? That's another matter!
